WEATHER OF CONCERN

Weather of Concern

- Two strong Pacific fronts will move across the North Coast and across the Northern California interior later this week into the weekend.
- The first will arrive on Thursday followed by the second on Sunday which will bring periods of heavy rain and gusty winds.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Periods of strong south-southwest winds with wet unsettled weather starting Thursday

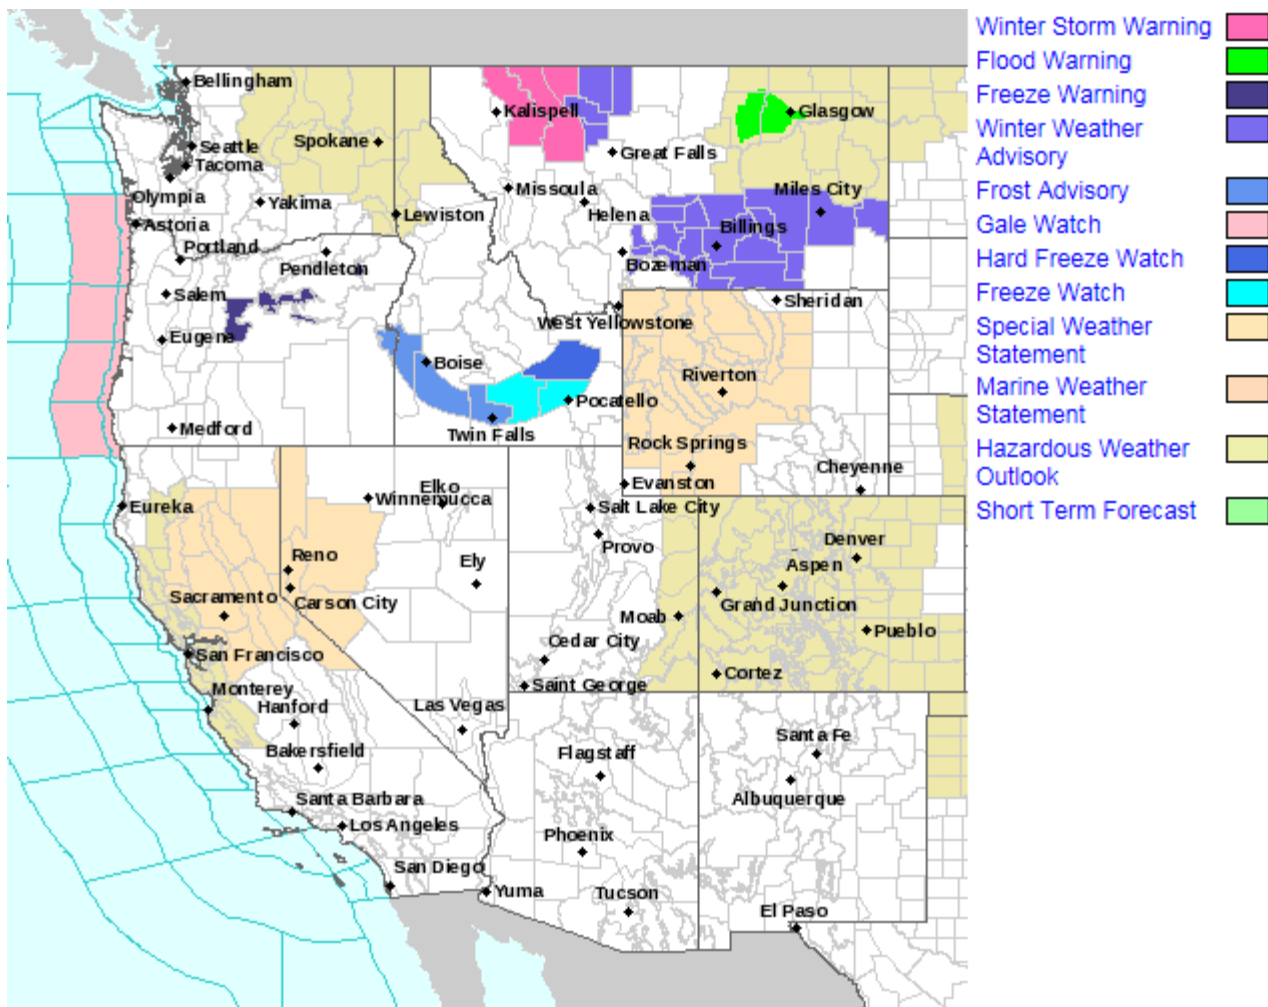

Dry and warmer than normal weather can be expected throughout Northern California through Tuesday. Light night and morning down-slope/down-valley winds west of the Cascade-Sierra Crest will end by the middle of each day, and turn light up-slope/up-valley each afternoon. Winds east of the crest will increase this afternoon. Southwest gusts will reach 25-30 mph in wind-prone areas for a few hours. High pressure passing overhead on Tuesday will produce light winds with continuing mild and dry conditions. The high pressure will move off to the east on Wednesday as a Pacific trough approaches the coast. Wednesday will be breezy again with increasing clouds and cooler temperatures. South to Southwest winds will gust to 20-30 mph in many areas on Thursday as the initial front and rain move onshore. Winds might be even stronger Friday and Sunday as stronger fronts move through, but with moderate to heavy precipitation. Saturday will be mostly cloudy and breezy with scattered showers. Monday and early Tuesday will also be mostly cloudy and breezy with scattered showers. Snow levels will start out around 6,000-7,000 feet and drop to around 5,000 feet by late Sunday.

SOUTHERN CALIFORNIA

The ridge of high pressure that has been over California the last few days will weaken today bringing a cooler temperatures and a higher relative humidity. Maximum temperatures will be in the 70's to low 80's across the mountains and 80's to low 90's in the valleys. Minimum relative humidity will be mainly between 12% and 25% away from the coast today. A series of troughs will move inland across the West Coast bringing near to a little below normal temperatures to Southern California Tuesday through this weekend. Minimum relative humidity will increase to above 20% away from the deserts Tuesday through this weekend. Westerly afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will surface across the mountain ridges and desert passes through Thursday and then increase to 20 to 30 mph with gusts to 50 mph Friday through this weekend. Scattered showers with light rainfall totals will be possible from a Monterey/Fresno County line northward Friday and again Sunday. The marine layer will deepen this week with morning low clouds and fog making it into the coastal valleys by Tuesday and onto the lower coastal mountain slopes by Saturday.

WEATHER MAP

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Current CAL OES Proclamations

Soberanes, Vegetation Fire, Monterey County

- On 07/26/16, Acting Governor Tom Torlakson issued emergency proclamations for Monterey County due to the effects of the Soberanes Fire.
- On 07/24/16, Monterey County proclaimed a local State of Emergency.
- On 08/04/16, Monterey County requested assistance through CDAA and a Federal Declaration in order to request federal assistance through the Stafford Act.
- On 08/31/16, a signed revised extended Proclamation was received from Monterey County which includes both the Soberanes and Chimney Fires. They are requesting CDAA for debris removal.

Loma, Vegetation Fire, Santa Clara and Santa Cruz Counties

- On 09/27/16, a Proclamation was received from Santa Cruz County for the Loma Fire. There are no requests for state assistance.
- On 09/30/16, a Proclamation was received from Santa Clara County. There are no requests for state assistance.
- On 10/07/16, a Ratified Proclamation was received from Santa Clara County for the Loma Fire. There are no requests for state assistance.
